

in Entomolog. 1795, III. 110. — Ehe man mit mathematischen Exemplificationen kommt, sollte man doch die Literatur nachlesen. Beide Citate sind in dem Jedermann zugänglichen Catalogus Coleopt. Gemminger-Harold zu finden. Als Verfasser dieser Abtheilung des Catal. Coleopt. Europ. ed. III. glaube ich diese Notiz geben zu müssen. — Uebrigens hat die 2. Art, wie in edit. III. auch angegeben, den älteren Linné'schen Namen *ustulatum* zu führen.

Dr. L. von Heyden.

Litteratur.

Psyche, a Journal of Entomology published by the Cambridge Entomological Club. Cambridge Mass. U. S. Am.) Vol. VI. No. 178. February 1891. —
